

Meeting Visuals

In today's fast-paced business environment, making decisions quickly and efficiently is critical to maintaining a competitive advantage. Time wasted scheduling in-person meetings, making travel arrangements and bringing together a globally dispersed team can mean lost revenue and increased operating costs. Every minute counts.

With Meeting Visuals powered by WebEx™ you can increase effectiveness and productivity— across your entire company— and make faster, more accurate business decisions every day. Collaborate with employees, customers and business partners— anytime, anywhere. Meeting Visuals integrates data, voice and video content within a standard web browser so you can conduct real-time meetings over the Internet— simply and quickly.

Rely on Meeting Visuals

- + Present slides to make your meeting more memorable
- + Conduct sales presentations
- + Share your latest sales and financial projections
- + Collaborate on product plans and design specifications
- + Annotate technical documents

Meeting Visuals Features

- + Network-Based Recording
 - Record your meetings and build valuable libraries of your most important recordings. NBR can be customized to include all meeting content, including chat, presentations, and audio and video data. When you need to access your content, NBR is optimized to allow on-demand streaming and downloading of archived sessions.
 - Re-Assign Network-Based Recordings
 - Truncate the beginning or end of the recording for seamless editing
- + Integrated Audio Controls
 - Control your Reservationless-PlusSM audio conference from within the Meeting Visuals meeting interface.
- + Document Sharing
 - View PowerPoint presentations, documents or graphics without uploading the files to a server. Meeting Visuals service's unique Vector format allows for high resolution, multi-level zooming and annotation capabilities.
- + Support for Microsoft® PowerPoint™ Animation and Transitions
 - Share multiple PowerPoint presentations in a single meeting with support for animation and slide transitions.

- + Multimedia Content Sharing
 - Play back multimedia objects, including Flash and streaming video and audio, within PowerPoint presentations. Incorporate streaming multimedia from any website into your meeting.
- + Rotate Documents in Landscape and Portrait
 - Via the Presentation Viewer, you have the ability to rotate documents in landscape and portrait and also have additional options for document sharing and viewing for improved user experience.
- + Application Viewing
 - Show any business-critical desktop application without uploading files to a server. Present any application remotely, enhancing the effectiveness of live demos and team meetings.
- + Application Sharing and Desktop Collaboration with Remote Control
 - Share anything on your desktop with an audience member to instantly solve customer support issues, conduct more effective live demos and streamline project meetings.
- + Quick Start Screen
 - This tool provides one-click access to the most commonly used meeting features like Presenting a Document and Sharing an Application.
- + File Transfer
 - Presenters can easily pass documents to participants for download during a meeting.
- + Polling
 - Allows presenter to solicit feedback from attendees via online survey responses which can be saved for easy viewing and sorting later..
- + Multipoint Video Integration
 - Incorporate real-time videoconferencing into your meeting from up to six desktop video cameras.
- + One-Click Meetings
 - Start meetings and effortlessly bring decision makers together with just one click.
- + Quick Scheduler /Advanced Scheduler
 - Schedule a meeting in a few short steps with the Quick Scheduler. Choose from one of your saved meeting templates; which includes frequently used settings. Or indicate additional key meeting details using the Advanced Scheduler
- + Scheduling Templates
 - Meeting options and settings are saved in a template for quick access to your personalized scheduled meeting. Save templates within the Quick and Advanced Scheduler to shorten the steps needed to schedule future meetings.
- + Auto-Play Presentations
 - As attendees join the meeting they can view a presentation, which runs automatically or is attendee controlled.

- + Note Taking Panel
 - Provides attendees with a window to take and save notes for meeting minutes.
- + PowerPanels™
 - Customize your meeting view by opening, closing and resizing Participant, Chat, Notes, Video and Polling panels according to the needs of your meeting.
- + Meeting Transcripts
 - A transcript of the meeting can be emailed to attendees to ensure timely follow up on important decisions and action items.
- + Floating Icon Tray
 - Float your PowerPanels over your meeting screen when in Full Screen view to get access to essential meeting functions and tools. The tray also allows you to seamlessly switch between sharing modes.
- + Productivity Tools-Single Installer/one download for desired functionality determined by the site administrator
 - Microsoft Outlook Integration; Leverage leading enterprise workflow applications to streamline the meeting scheduling process.
 - Lotus Notes Integration; Schedule, start, or join online meetings using Lotus Notes.
 - Add to my Calendar; Create appointments in major calendar applications containing meeting information via a one-click "Add to My Calendar" button,
 - New IM integrations and user enhancements
- + Distribution Lists.
 - Create distribution lists and import groups directly into a Meeting Visuals account making it easier to send meeting invitations to large or recurring groups.
- + High Performance and Reliability
 - With servers strategically dispersed at facilities around the globe, the WebEx Interactive Network routes meetings through hubs that deliver reliable, secure, high-performance services. Presenters conduct multi-unit interactive meetings without latency or interruptions from anywhere in the world.
- + Security
 - Support for SSL encryption enables you to securely conduct interactive meetings with even the most confidential information and on-demand solutions.
- + Increased Operating System and Application Platform Support combined with client size reduction for easy installation.
